

COVID SYMPTOMS AT HOME FLOW CHART

If your child has a normal childhood cold, please send them to school.

If your child develops a cold, with a runny nose, cough and high temperature and you are unsure as to how to proceed, please refer to your GP as to whether you need to book a test. It is unlikely to be COVID, but we are unable to decide for you and the GP is better placed to give you advice.

Does my child have a **temperature, new continuous cough** or **loss of taste/sense of smell**?

Does any member of our household have a **temperature, new continuous cough** or **loss of taste/sense of smell**?

YES

Child stays at home, notify the school ASAP

CHILD MUST GET COVID TEST – COVID NHS Number 119 – MUST INFORM SCHOOL OF RESULT

POSITIVE

Child stays home for at least 10 days & temperature has gone

Family Members must stay home for 14 days from 1st day of symptoms

If child shows any COVID-19 symptoms they cannot return to school without receiving a **NEGATIVE TEST**

NO

Child can go to school

YES

All members of the household stay at home.

Member of household showing symptoms must get COVID test – COVID NHS Number 119 and others get tested if they show symptoms – MUST INFORM SCHOOL OF RESULT

NEGATIVE

If you are contacted by NHS test and trace (and your child was with you during the contact with the COVID-19 person) you and your child must self-isolate for 14 days, even if either of you receive a negative test.

If your child was not with you when you had contact with the positive person, your child can attend school as long as you do not develop any symptoms.

POSITIVE

Child stays home for 14 days
