Code of Conduct

Code of Conduct

In order to ensure our visit to the Pioneer Centre is successful, safe, and fun, it's important that everyone knows what activities we will be doing and where we will be going. Since many of these activities and places are new, it's essential that everyone agrees to a set of behaviour expectations to make sure we all have a good time while staying safe.

Consequences

If a child breaks this code of conduct, their group leader will talk to them about what happened. If needed, the incident will be reported to Mrs. McCormack, a member of the senior leadership team. Mrs. McCormack will then follow up, and the child might miss an activity. If the behaviour is serious or happens repeatedly, parents will be contacted which may lead to them having to collect their child and return to school.

I have read and understood the behaviour rules for the [insert name of Centre] visit. I understand that if I misbehave seriously, my parents/guardians will be contacted to collect me, and I may not be able to stay.
